## Actions for the Achievement of Sustainable Development Goals (SDGs)

Material of the "TAKASEGAWA" is "Fine Crystal" and it does not contain lead. Full-surface toughened glass is strong and scratch-resistant.

In 2021, we will begin manufacturing and selling the first of our new environmentally friendly products.

The Sustainable Development Goals (SDGs), also known as the Global Goals, were adopted by all United Nations Member States in 2015 as a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and prosperity by 2030

### GOOD HEALTH AND WELL-BEING

Select materials that are environmentally friendly.

No lead, which is hazardous to health and the environment, is contained in the raw materials, thus reducing environmental risks and impact.

### RESPONSIBLE CONSUMPTION AND PRODUCTION

Use the earth's natural resources carefully.

Toughened glass is strong and scratch-resistant. By continuing to use glassware for longer periods of time, we can help conserve resources.
